

**Be Kind, Stay Safe, Have Fun!**

- Be Kind. Take turns and share.
- Listen to the adults. They are there to help keep everyone safe.
- If you notice someone by themselves, invite them to play.
- Students must be able to get up and down from the equipment INDEPENDENTLY. If you are not able to climb up and down safely on your own, you are not ready to go that high.
- Wear clothes that allow you to move safely. No dangling items (e.g. a lanyard), backpacks, or scarves as these can present choking hazards.
- Keep your shoes and socks on at all times.
- Eyes should always be open. Be aware of what is around you.
- Move safely and respect the personal space of others.
- Use equipment properly and in designated area.
  - Skipping ropes on compound only.
  - No play equipment (balls, hoops, etc.) on the play-structure area.
